Introduction

- The HTML elements are embedded into your website DOM directly. You can style the elements either through your own CSS file or the built-in styling mechanisms in MinimalWebshop.

- All CSS classes are prefixed with mws-

- The CSS editor in MinimalWebshop supports SCSS.

minimal**webshop**

```scss
.mws {
  /* General elements */

  .mws-button:not(.mws-button-unstyled) {
    &:hover {
    }
  }

  /* Section 1: Shop */
  .mws-shop {
    .mws-product {
      .mws-image {
      }

      .mws-product-wrapper {
        .mws-title {
        }
        .mws-price {
        }
        .mws-description {
        }
      }
    }
  }

  /* Section 2: Product Details */
  .mws-product-details {
    .mws-image {
    }

    .mws-product-wrapper {
      .mws-title {
      }
      .mws-price {
      }
      .mws-description {
      }

      /* License boxes */
      .mws-prices {
        .mws-title {
        }
        .mws-description {
        }
      }
    }
  }
```

```scss
  /* Section 3: Customer Portal */

  .mws-portal {
    .mws-product {
      .mws-image {
      }

      .mws-product-wrapper {
        .mws-title {
        }
        .mws-price {
        }
        .mws-description {
        }

        /* Purchased license and purchase information */
        .mws-prices {
          .mws-title {
          }
          .mws-description {
          }
          .mws-purchasedate {
          }
        }

        /* Product files for download */
        .mws-files {
          .mws-image {
          }
          .mws-title {
          }
          .mws-description {
          }
        }
      }
    }
  }
}
```

MinimalWebshop CSS – Empty SCSS Template

minimalwebshop

.mws
Root container for all MinimalWebshop elements
